SUMMARY

Versatile, detail-oriented professional with a background in technical writing, software development, and curriculum instruction & assessment (CIA), complemented by a growing foundation in technical research, data analysis, and process optimization. Skilled in workflow analysis, documentation, and cross-functional collaboration to enhance operational efficiency. Adept at identifying inefficiencies, streamlining processes, and facilitating clear communication between technical teams and stakeholders. Proven ability to analyze data, manage documentation, and support process automation to drive operational improvements. Passionate about leveraging analytical skills and problem-solving expertise to contribute to business success.

EXPERIENCE

Technical Writer (Externship) |Secured Health

12/2024 - 02/2025

- **Developed** comprehensive written and digital content to improve user comprehension by creating clear and concise documentation for Secured Health's products and services.

- **Streamlined** documentation processes with increased efficiency and faster content updates by leveraging GitHub, Figma, Asana, and Google Drive for version control and collaboration.

- **Enhanced** product usability by accelerating new user onboarding through clear, time-saving component documentation and instructional materials tailored to user needs.

Instructional Leader

02/2011 - 10/2022

- **Independence Charter School West**, PA (Aug 2021 - Oct 2022)

- **Christina School District,** DE (Nov 2017 - June 2018)

- **School District of Philadelphia**, PA (Feb 2011 - June 2017)

- **Implemented** EL (ELA) curriculum for sixth-grade students, resulting in 85% meeting or exceeding grade-level expectations through designing engaging lessons and adapting content to diverse learning needs.

- **Led** curriculum adaptations for special education students, enhancing accessibility and comprehension across grades 5-8 by differentiating instruction and collaborating with support staff.

- **Developed** state-aligned ELA lesson plans for mixed-ability sixth-grade students, achieving a 78% improvement in standardized
